PROJECTS

[All page numbers refer to the course text.]
1) Transcription Project (in Four Parts)
   Note: The assignment projects in the back of the text called “Transcription Projects” are both CANCELLED. This assignment takes their place.
   *Part I - Transcription* of a 64 measure solo of the artist of your choice in the post bop style or a modern style (to be approved by instructor). That is either: 4 choruses of a 16-bar form, 5 choruses of a 12 bar form (not the blues), or 2 choruses of a 32 bar form, or roughly the equivalent of some other form length.
   *Part II - Analysis* of corrected transcription within the context of the principles discussed in the text and lectures. More specific instructions can be found on the Transcription Project Instruction sheet on Blackboard.
   *Part III - Presentation* of transcription to the class at the end of the semester. This presentation will be longer and more in depth than the presentations for previous classes in the series. More specific instructions can be found on the Transcription Project Instruction sheet on Blackboard.
   *Part IV - Performance* of the transcription on your instrument at the end-of-semester project meeting.
2) Memorized and Sight Reading Repertoire (primary instrument)
   A) Memorization and performance of two pieces from the Repertoire List (page 103).
      [Select tunes of contrasting styles and tempi]
   B) Performance of one sight-reading tune selected by the instructor.
3) Piano
   A) Ability to play 4 note SATB ii V I cadences in all keys in one new group.
   B) Ability to play arrangement on the chord changes to E.S.P. at the required tempo.
4) Scales & Patterns (primary instrument)
   A) Ability to play TWO scales (of your choice) of the assigned four modes and scales at the required tempos.
      Individual evaluation appointments will be assigned for projects 1, 2, 3, and 4 with the instructor. These meetings will take place the week before final exams. The appointment times will be made available on signupgenius late in the semester.
   B) Ability to play ONE pattern from the list of patterns provided.
Important Notice: If a student fails to come to his or her assigned appointment without prior notification and rescheduling with the instructor, that student will forfeit 8% of his or her total grade.

5) Composition
Compose an original jazz composition in a manner reflective of the harmonic principles of Chromatic Modal Jazz. The composition is to be written for the format of 3 or 4 rhythm section players, including piano and/or guitar, bass and drums, and two horns, with occasional harmonies. Horn parts and four concert lead sheets are required (pencil copies or photo copies are acceptable if they are neat, but computer-generated music is strongly preferred). Required length of the composition is 16 measures and must be through composed – typically, a head of this length would be repeated. A variation on repeat might be welcome, but that is left up to the composer. The student may experiment with open/closed forms, but it is not required. [Refer to the assignment sheet on blackboard for due dates]

Grading is based upon the following factors, though specific rubrics for each draft vary:
1) Melodic/motivic unity
2) Harmonic structural unity
3) Stylistic authenticity
4) Creativity

Drafts
1st Draft of harmonic progression of the composition
2nd Draft revised harmonic progression and melody
3rd Draft (not graded) – revised melody and draft of parts.
Final draft of the composition and parts due at the recording session

Class members will record the compositions for final grading evaluation. The instructor will provide class members .wav files of the compositions before the end of the semester.

No contrafacts - Overt plagiarism will automatically disqualify the student with a failing grade in the class in accordance with university policy.

Again, computer-generated scores and parts are STRONGLY preferred. In the 566 series, they are required.

Late Penalty Policies for Homework Assignments and Theory Midterm

If theory and ear training assignments, or the theory midterm, are one calendar day late, a 5% penalty will be incurred. If an assignment or theory midterm is turned in two calendar days late, a 10% penalty will be given. If any of these items are three calendar days late, don't bother turning them in, they will not be accepted. The grade assigned will be an F with "0" points.

Specific Directions for Turning in Late Assignments

Assignments turned in one day (or two days) late must be turned in to the music department office and must be date stamped by office personnel. They will, in turn, put it in my mailbox. Assignments not date stamped will be assumed to have been turned in on whatever date that the instructor checks his mailbox. This could mean the difference between a passing and failing grade, so please, have your work date-stamped!

Assignments may be turned in digitally by midnight on the day it is due without incurring a late penalty (ie., a pdf or jpeg). You must also submit a physical copy of the assignment.

Remember, the music department office is closed on Fridays.

**The theory final exam must be turned in on the assigned due date. Unlike the late policies for assignments and the theory midterm, there is no grace period for the theory final.**

Attendance Policy

Good attendance is critical to a student’s success in this type of sequential class. I will record attendance each class day, starting from the second week of class. Each student is allowed three absences during the course of the semester without penalty. Any absences after that will incur a 1% penalty from the total grade (per absence). This policy is in affect from the third class meeting through the end of the semester.

Exception will only be given for verifiable family or health emergencies.

Students with Disabilities

If you are a student with a disability and believe you will need accommodations for this class, it is your responsibility to contact Student Disability Services at (619) 594-6473. To avoid any delay in the receipt of your accommodations, you should contact Student Disability Services as soon as possible. Please note that accommodations are not retroactive, and that accommodations based upon disability cannot be provided until you have presented your instructor with an accommodation letter from Student Disability Services. Your cooperation is appreciated.

Note: To advance to Jazz Arranging & Composition (Music 566A) a student must receive a letter grade of no less than C.
